

Your Gateway to World-Class Preclinical Expertise

Who We Are

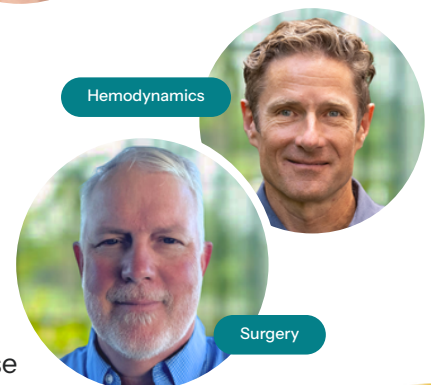

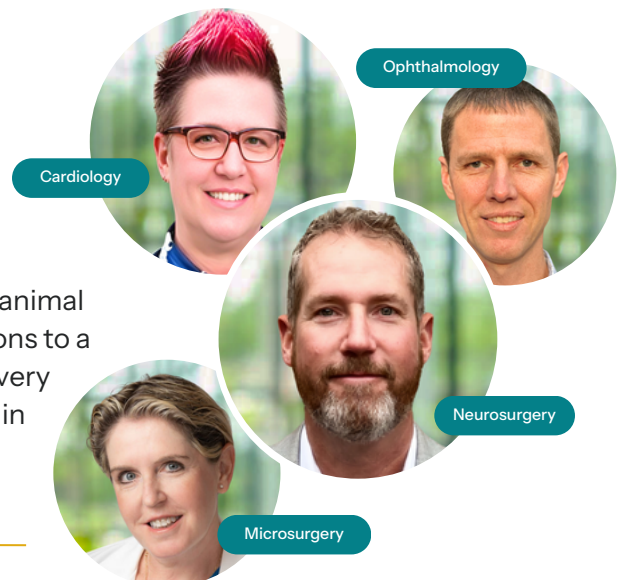

Endpoint Preclinical is the leading consulting network for preclinical research, offering advanced services to CROs, pharmaceutical companies, biotech firms, medical device manufacturers, and academic labs. We provide a unique combination of world-class surgical expertise, advanced analytics, and regulatory insights—accelerating your preclinical research from discovery through regulatory approval.

- ✓ **Expert Surgeons**
- ✓ **Vet Cardiologists**
- ✓ **Vet Radiologists**
- ✓ **Vet Ophthalmologists**
- ✓ **Vet Pathologists**
- ✓ **Toxicologists**
- ✓ **Imaging Specialists**
- ✓ **Data Analysts**
- ✓ **Regulatory Experts**
- ✓ **Clinicians and more!**

Our on-site services take place directly in your lab, steps away from animal housing. Our off-site services provide flexible and immediate solutions to a range of needs. We work on projects big and small, from early discovery phase or device ideation through to regulatory filing and everything in between.

Why Partner With Us

- **Expand Your Capabilities:** Seamlessly integrate world-class expertise into your operations and quickly scale your service offerings.
- **One Partner, Unlimited Expertise:** We eliminate the burden of finding, contracting, and coordinating multiple contractors—so you don't have to!
- **Seamless Integration:** We work directly in your lab, becoming an extension of your own team—right where science and discovery happen.
- **Simplify Complexities:** Our in-depth regulatory and compliance expertise ensures smooth navigation of global requirements.
- **Accelerate Your Projects:** Immediately access surgical, analytical, and regulatory specialists to ensure your projects stay on track.
